Dear colleagues!

Having read on the official website of the Kharkiv National Automobile and Highway University the project of the Bachelor's level educational program "Economics" for 2023, based on the experience of implementing similar educational programs at the University of Security Management in Košice and taking into account the presence of Ukraine in conditions of constant threats to security (in particular, military security, socio-economic security, ecological security, informational security, transport security, etc.),

recommend

to consider the possibility of adding such an educational component as "Economic security" to the list of mandatory disciplines of the Bachelor's level educational program "Economics" in 2023 in the Kharkiv National Automobile and Highway University.

Dr.h.c., Prof. Igor Britchenko, DrSc, DBA

Vice-Rector for International Relations

University of Security Management in Kosice, Slovakia
