

REVIEW

on the educational and professional program "Accounting and Taxation"
in the specialty 071 "Accounting and Taxation"
of the first (bachelor's) level of higher education
at the Kharkiv National Automobile and Highway University

The educational and professional program "Accounting and Taxation" of the Kharkiv National Automobile and Highway University is aimed at training high-level bachelors who possess modern knowledge and practical skills in the field of accounting and taxation.

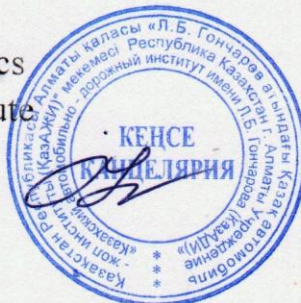

The educational and professional program proposed for review meets the requirements of the Standards of Higher Education of Ukraine for the first (bachelor's) level of the specialty 071 "Accounting and Taxation" of the field of knowledge 07 "Management and Administration".

The educational and professional program is structured and described in a logical manner, including general information, goals, program characteristics, suitability of higher education applicants for employment or further education, teaching and assessment, program competencies, program learning outcomes, and resource provision for program implementation.

It should be noted that the general and special (professional) competencies, personnel and material and technical support of the educational and professional program cover a sufficient theoretical, pedagogical, and material and technical base for training bachelors in the specialty 071 "Accounting and Taxation" at the Kharkiv National Automobile and Highway University.

Thus, the reviewed educational and professional program in the specialty 071 "Accounting and Taxation" corresponds to the declared first (bachelor's) level of higher education. The content of the structural elements covers the most important knowledge of accounting, analysis, control, and taxation procedures, and their application forms the competencies necessary for the successful solution of professional tasks. There is every reason to believe that the results of training under the program can meet the needs of potential employers in specialists in this specialty.
